

A 5 – Day LDI Training Course

HOLISTIC PSC MANAGEMENT (PSC Budgeting & Reporting, *Taxation*, *Legal and Financial Aspect of PSC*)

by
Dr. A. RintoPudyantoro, MM., Ak., CA

Introduction

This 5 days comprehensive training program by LDI Training integrates key Accounting, Budgeting Reporting Systems and Legal, Financial, Taxation, under the Production Sharing Contracts (PSC) framework, covering both Gross Split and Cost Recovery models.

The program is tailored for professionals in the Oil and Gas Industry who seek a holistic understanding of the regulatory, financial, and operational intricacies associated with PSCs. By combining three core training modules—**PSC Legal & Taxation**, **WP&B and AFE**, and **PSC Financial Accounting & Reporting**—participants will gain valuable insights into the interconnected aspects of managing oil and gas projects effectively.

The **PSC Legal & Taxation** module emphasizes understanding the legal frameworks and tax implications affecting oil and gas operations. This segment provides an in-depth analysis of the regulatory environment, compliance requirements, and the financial impacts of taxation on PSCs. It is particularly beneficial for legal advisors, financial consultants, and managers who need to navigate the complexities of oil and gas regulations and provide comprehensive guidance on contractual obligations and financial planning.

The **WP&B and AFE** (Work Program & Budget and Authorization for Expenditure) module focuses on the planning and financial control processes critical to the success of oil and gas projects. This training provides detailed guidance on budgeting, cost management, and strategic decision-making within the framework of PSCs, enabling participants to optimize project execution and align financial practices with regulatory

standards. Professionals in project economics, finance, and strategic management will find this module invaluable for enhancing their skills in financial planning and project control.

The **PSC Financial Reporting** module thoroughly explores the accounting and reporting practices required under the PSC Gross Split and Cost Recovery models. Participants will learn about cost recovery mechanisms, financial reporting standards, and the development of accurate accounting procedures to ensure compliance with PSC requirements.

This module is ideal for everyone whose job is relate to the financial matters. Together, these modules provide a comprehensive learning experience that equips participants with the essential knowledge and skills to excel in the dynamic oil and gas sector.
