

A 3 Day LDI Training Course

Pressure Control Equipment for Wire- Line

by
Rachmat Sudjana, ST

Introduction

Wireline Pressure Control Equipment are one of the types of Pressure Control Equipment which helps in maintaining the optimal pressure levels inside a wellbore when any well intervention operations are performed by an operator in any easy or hazardous conditions.

This basic knowledge is inherently important to be fully understand for whom working on the Oil & Gas Fields

The Aims

The Participant will get the benefit of basic knowledge that is mandatory to be well understood by Technicians, Engineers, and Procurement Staff. At the end of the course will give more benefit to the company in term of increasing employee's basic knowledge.

Couse Contents

1. Basic knowledge of PCE
 - Wireline valves
 - Compact hydraulic wireline valves
 - Wireline valve equalizing systems
 - Wireline valve Ram configurations
 - Wireline Equipment
 - Wireline Tools
 - Slickline Equipment

2. Applicable International Code for PCE
3. Service Purchasing Guide
4. Safety on PCE

Who Should Attend

Trainees, Technicians, Mechanical Engineers, Process Engineer, Operation Engineers, Field Supervisors, Production Supervisor, Support Supervisors and other personnel who will be involved in the daily operations of oil and gas fields in terms of wireline activities

Your Course Leader

Rachmat Sudjana, ST

Education: University of Indonusa, Industrial Engineering AKAMIGAS, Mechanical Engineering

Qualification: Instructor for Oil and Gas Industries and Pulp & Paper Mills

Other Qualifications: Lecturer and Mentor for Graduate Engineering Trainee –
Engineering Manager - Senior Staff Pipeline/Facility Engineer –
Pipeline Material Selection Specialist

He was a retired Oil & Gas Industry practitioner, who is willing to share his knowledge and experience to the next engineer's generation who need them.

He has a lot of experiences in the Oil & Gas Industries domestic and abroad in the World Class Oil Companies, such as working in the oil field in the north edge of Sahara Desert, Africa next the south shore line of the Mediterranean Sea. As soon as he retired, he had a particular assignment as a Company Engineer in Foster Wheeler, Reading, next to London, UK.

He completed the assignment and got a lot more experience after the completion of the project. Along with his engineering tasks, he was also mentored the engineer's new hire in the company to facilitate them for their future to hold more responsibility. He is willing to improve the knowledge by sharing them to others. He also presented some of technical papers in the national and international forums.

COURSE DELIVERY

- This offline (face to face) course is conducted in Bahasa Indonesia
- Training hours are from 08:00 to 16:00 WIB
- Participants will receive course materials
- Participants will receive a certificate after completing the training

TRAINING CONFIRMATION

LDI Training will provide a Confirmation Letter after we receive registration according to the required quota.
