

# **STRATEGIC DIGITAL CORPORATE COMMUNICATION**

by

**ARVINDA TRIPRADOPO**

---

## **INTRODUCTION**

As multiple forms of digital platform continue to reshape the business landscape, corporate strategists are challenged to stay informed, adapt, and make strategic and quick decisions in an environment that is continuously evolving.

This three-day program designed for non-communication professionals delivers frameworks and foundational tools you need to design, implement, and manage a successful digital communication strategy that helps you in achieving any business objectives.

This program will allow participants to engage in the exploration of new insights and experiences from the instructor by combining the use of conceptual frameworks, case studies, practical checklists, simulation, and team activities.

## **KEY BENEFITS**

**By participating in this course, you will:**

- Develop the skills to build an actionable digital communication strategy that aligns with your goals
- Examine how companies from different industries use specific digital communication strategies to reach specific target audiences
- Build a digital communication journey that can be used and implemented immediately
- Identify ways to determine return on investment (ROI) for your digital communication efforts
- Build audience personas to better target your key customers
- Discuss digital communication challenges, from measurement, implementation to crisis management

## **COURSE CONTENT**

- 1. Digital Communication**  
What digital communication is all about and its application in business context.
- 2. Digital Stakeholder Mapping**  
Identifying what digital medias are being used by our stakeholders.
- 3. Integrated Digital Channel:**  
How using multiple digital channels can help us in increasing awareness from our audience.
- 4. Digital Communication Strategies**  
A compilation of effective communication strategies designed to reach digital audience.
- 5. Digital Stakeholder Engagement**  
How to create higher engagement from our digital stakeholder, regardless of what digital media they are using.
- 6. Digital Communication Monitoring**  
How should we monitor and evaluate the result of our digital communication strategy.
